

**REMARKS**

Applicant filed a preliminary amendment concurrently with the present application. In the preliminary amendment, claims 1-33 were cancelled and new claims 42-49 were added. Thus, claims 34-49 are currently pending and are directed to board-on-chip semiconductor device package assemblies. In the Restriction Requirement, the Examiner did not take into account the preliminary amendment that was filed concurrently with the present application. The Examiner only reviewed the claims as filed in the parent application and did not take into account the preliminary amendment.

Accordingly, the Applicant is making a bona fide attempt to respond to the Restriction Requirement and elects claims 34-49. Applicant requests that if there are any further issues regarding this Restriction Requirement, the Examiner please call the undersigned at the telephone number listed below. Consideration of the elected claims is now requested.

Respectfully submitted,

DORSEY & WHITNEY LLP

Marcus Simon
